

Finishes

Foils allow you to further bespoke the look of a building and create individuality. Furthermore, all our foils are supplied on 100% calcium organic material and applied using our eco friendly process.

All foils are available in these options: Foil on the outside and white on the inside, foil both internally and externally and also white outside with foil inside, the choice is yours.

All Duraflex foils are available on signature white profiles and bevelled or featured options.

All foiled using Eco Friendly lamination, without the use of hazardous solvents.

Woodgrain on white achieves the look of traditional hardwood frames on the outside and brilliant white frames on the inside.

Other colours available on request and subject to extended lead times.

Coloured Substrate

With the growing demand for coloured windows and doors and to further compliment our foil offering, here at Duraflex, we are committed to enhancing and developing our coloured substrate portfolio.

In-line with both customer and consumer demand, we have expanded our coloured substrate options, including the introduction of: Tan, Grey, White, and Brown.
